

MR STANLEY

ROUTEMASTER BAR & TERRACE

WELCOME ABOARD

Introducing Mr. Stanley, an extraordinary 1961 Routemaster (RML896), redefined into a truly unique mobile bar and panoramic rooftop terrace.

Finished in a distinguished royal blue, this iconic double-decker seamlessly blends timeless British heritage with contemporary luxury, creating a striking centerpiece designed to captivate, impress, and perform at the highest level.

LOWER DECK

On the ground floor, a fully professional bar is crafted with precision and purpose.

Featuring elegant service windows that open to the exterior, it allows for high-end service directly to guests outside.

This design ensures a refined and efficient flow, while the interior remains exclusively dedicated to staff and bartender, maintaining both performance and sophistication at all times.

UPPER DECK

Above, the experience reaches its defining moment. The upper deck has been transformed into an exclusive rooftop terrace : an elevated space offering a rare perspective and an atmosphere unlike any other.

At its core, a hydraulic lifting roof allows the environment to adapt effortlessly, transitioning from an intimate, enclosed lounge to an open-air terrace in seconds.

More than a vehicle, Mr. Stanley is a fully immersive destination. A moving landmark. A refined statement piece that naturally draws attention, enhances brand presence, and transforms any location into an experience.

THE PROJECT

Born from the vision and craftsmanship of Kozelsky Catering, this project represents a bold evolution.

Following years of delivering high-end culinary services including exclusive private jet catering in Sion, the journey has expanded into creating exceptional mobile hospitality concepts.

The success of the first Routemaster transformation confirmed a clear demand for design-driven, experience-focused event solutions.

OUR CONCEPT, YOUR IDEAS

With Mr. Stanley, that vision reaches a new level of refinement, versatility, and impact.

Designed to travel.
Built to impress.
Created to perform.

Mr. Stanley is ideally suited for corporate events, luxury private celebrations, brand activations, automotive shows, premium exhibitions, festivals, and high-profile launches.

Already confirmed for prestigious appearances such as the Geneva Supercar Show, and with ambitions reaching from Monaco to St. Moritz, Mr. Stanley is destined for Europe's most iconic stages.

A BRITISH ICON REIMAGINED

Built in 1961, Mr. Stanley began life as RML896, an original London Routemaster and one of the most recognisable vehicles ever created. For decades, buses like this carried millions through the streets of London, becoming a global symbol of British design, craftsmanship, and heritage.

Today, only a limited number of these legendary double-deckers remain, making each one a rare piece of history.

Rather than preserving the past behind museum doors, Mr. Stanley has been meticulously reimaged for a new generation. Respecting its iconic character while embracing contemporary luxury, it has evolved into an extraordinary mobile bar and panoramic rooftop terrace, where timeless heritage meets unforgettable hospitality.
